In addition to the trees and plants mentioned in the foregoing pages, we have quite a lot of other varieties in small quantities, and in a number of cases larger sizes than quoted herein. So if you have special items or sizes different from this list, let us know your needs and the chances are that we can supply. If we do not have it, perhaps we can locate with some of our connections. Write us about any trees or plants that you have in mind.

PRICES in this catalog cancel all previous lists and quotations, and are subject to change without notice.

"3 TO 4 FEET" means that the tree or plant will be 3 feet or over, but under 4 feet; and throughout the list the same.

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the stock chosen, irrespective of catalog price.

VISITORS WELCOME. You are invited not only to visit the office, but to go over the extensive grounds as well. There are more than 500 acres in the farm.

OUR LOCATION. Near Airport, 6 miles west of city limits, on highway 421 to Winston-Salem. Our shipping point is Guilford College, N. C.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for their convenience accounts will be opened, due in 30 days from date of invoice.

AUTO-TRUCK DELIVERIES, based on actual cost, if no Government regulations to interfere, are made within a reasonable distance of our Nurseries. The advantages of truck delivery are many. Boxing is eliminated, stock arrives in much better condition, and the goods are landed on the ground within a short time after being dug.

GUARANTEE: We exercise great care to keep our varieties true to name, and are willing at all times to resupply any stock that may prove otherwise, or to refund the amount paid us therefor (at our option), provided: the account was paid promptly, and we are advised within five years; it is mutually agreed that our responsibility ends with such action. No warranty as to productiveness of any tree or plant we sell is given. Orders shall be void should unavoidable injury befall the stock.

REPLACEMENTS: When stock has been properly cared for, and the account paid promptly as agreed, any plants that fail to grow the first season will be resupplied once at half list price at our warehouse or equal value of other items; transportation and planting costs, if any, extra. ("Replacements" refer to retail sales only.)

OFFICIAL INSPECTION. We furnish with each shipment a certificate that our Nurseries have been examined by the State Entomologist of North Carolina and found free from contagious diseases.

Throughout this book, wherever NR occurs it means that the plant will be dug without a ball of earth. Where B&B occurs it means that the plant will be dug with a ball.

Unless otherwise stated, Evergreens are dug B&B, while Trees and Shrubs are dug NR.

BROAD-LEAF EVERGREENS

This class of plant material is suited to the Piedmont section better than almost anything else, as you can have plants that are evergreen, and many of them bloom and berry, while some lend themselves to formal pruning. We are very fortunate in being privileged to live with such plants around us. They almost all stand shearing well.

SCUPPERNONG OR MUSCADINE FAMILY

2 year

1.50

The following varieties of muscadine grapes are among the best of this group, which is native to the southeastern United States. This type of grape is particularly well adapted for home planting, and vineyard planting of this type have been on the increase in recent years. The list below will provide fruit ripening in succession over the entire muscadine grape season. At least one of the double purpose sort should be included in every home planting. In vineyards one of this type to every eight Scuppernong plants, and other similar pistillate varieties, is recommended.

MORRISON

Very early; large berries with a pinkish tinge; very fine flavor. (the vine will need liberal applications of fertilizers.)

HUNT

Earlier than Scuppernong. One of the best black varieties; large berries of excellent flavor.

THOMAS

Color reddish purple; sweet, tender; early; vine vigorous, prolific. Best for unfermented grape juice and preserves.

SCUPPERNONG

Bronze colored skin; flesh juicy, musky, sweet, sprightly ; excellent quality.

TOPSAIL

Rated as being better quality than Scuppernong; crisp, fine sweet flavor; pearly green color. Vine vigorous and productive; should not be pruned too heavily.

CRESWELL

Fruit is large, black when fully ripe, with a reddish cast; hangs on till frost, getting sweeter all the time, a choice eating variety; vigorous, productive.

JAMES

Largest berries of the family; black; flesh meaty, quality medium. Latest to ripen.

DOUBLE PURPOSE

There has been originated at the Willard Test Farm new varieties of this family of grape, sorts that not only bear fruit without a male, but they themselves pollenize the other fruiting varieties. TAR HEEL. Highly productive; black shiny berries of fine quality; one of the best of its class.

BLACKBERRY PLANTS

These require but little attention, producing good crops of fine berries. They are native to the Piedmont section, and will give excellent results with but little care except keeping the weeds and grass out, in addition to removing the old canes.

Per 10, \$3.00; 25, \$6.00

Alfred. One of the best sorts; the berries are large and nearly coreless. Productive.

Eldorado. A strong, upright grower; large juicy berries.

BOYSENBERRY PLANTS

The berries are very large, delicious flavor. The plant is a very vigorous grower, and for this reason should be planted on medium to rather poor soil, well drained; tie up to a wire fence of about three strands, handling carefully. **Thornless type.**

Per 10, \$3.00; 25, \$6.00

DEWBERRY PLANTS

Lucretia. Berries usually larger than Blackberries, some weeks earlier; soft, sweet, luscious!

Per 10, \$3.00; 25, \$6.00

RASPBERRY PLANTS

More difficult to grow in Piedmont section, and of but little value in eastern section unless given special attention. The plants do much better if kept mulched. The soil must be good.

Per 10, \$3.00; 25, \$6.00

Cumberland is the standard black sort, and is a favorite where black raspberries are desired.

Latham is recommended as being one of the good ones; a thrifty grower, bright red berries.

STRAWBERRIES

Blakemore. A rank, vigorous grower. Very productive. Early ripening. Rather tart. Very popular.

Dorsett. Vigorous grower; berries of large size, fine quality; excellent for home use. Early.

Fairfax. Very fine quality; berries large, firm, good keeper. Good grower, and moderately productive. Mid-season.

Premier or Howard 17. Early, large, bright red; prolific, a sure cropper.

Spring fruiting sorts:

50 for\$3.00 | 100 for\$4.00

Mastodon Everbearing. A consistent producer of good berries, particularly if given extra care, fertilization and cultivation.

50 for\$4.00 | 100 for\$6.00

109 YEARS IS A LONG TIME

THE LINDLEY NURSERIES

have been in business since 1842, and within a few miles of the original location. Now starting well into the second century.

Experienced

Progressive

Dependable

Beginning in a small way in 1842, with a select list of fruit trees, it has grown till today there are more than five hundred acres in the nursery farm. Almost all types of trees and plants are now produced, as well as our doing extensive landscape work.

With our facilities and experience, we are in a position to handle your business along this line in a manner satisfactory to you, and shall be glad to hear from you. Write, telephone, call in person; we are here to serve you, and our representatives travel widely.

It will interest you to know that more than 60% of our employees have been with us an average of 21 years each.

We now have, we believe, the most modern warehouse, storage cellar, and office of any nursery in the South, and we invite your inspection.
